

FAMILY is just SECONDS away

Worlds First Programmable  
 2-Way Voice Emergency  
 Pendant Communicator

No Activation Costs  
 No Contracts  
 No Monthly Fees

Base Unit

Pendant

**Optional Accessory:**

*Emergency Wall Communicator* allows for a permanent mount option for the bathroom or bedside table. Full two-way voice communication just like the pendant. Mount low close to the floor for easy access in the event of a fall. Water resistant

**Pendant Battery** Two rechargeable lithium-ion batteries can provide several hours of talk time on a full charge - and up to several months in stand-by. Simply swap the batteries around every few months. Press the battery test button to hear an audible announcement - "battery is OK", battery is low", or "replace battery now". No guessing on battery status.

**Pendant can be carried in 3 convenient methods** Included with each system is a Lanyard a Wrist Strap/Wheelchair strap holder and a Belt Clip.

**Multiple pendants can be used with one base** A total of up to 4 Pendants and Emergency Wall Communicators can be set to work with one system. Great for husband & wife, or assisted living communities.

**Approved in all 50 states and Canada** DETC Technology 1.9 Ghz. FCC & DOC certified. Factory is ISO-9001 approved. Meets guideline of NENA (the 911 association). Conforms to UL1637.

Voice over IP (VoIP) Compatible

1 Year Limited Warranty  
 FreedomAlert is protected by  
 US Patent # 5,521,582 & Canadian Patent # 2,080,921  
 Other Patents Pending

**The world's first 2-way emergency pendant communicator**

Emergencies can happen in all parts of a home and frequently right outside a home in the yard or driveway. So whether you are just checking in with a friend, need some quick help from a neighbor, or are in an emergency, your FreedomAlert pendant will allow you to communicate your message instantly and efficiently from anywhere in and around your home. All with ONE button activation.

**Up to 4 user programmable contacts to call anytime**

You can personalize the system with a flick of a three position switch on the base unit to:

1. Call up to 4 numbers of your choice
2. Call the country's official emergency hotline
3. Call all the same 4 numbers followed by the country's emergency hotline

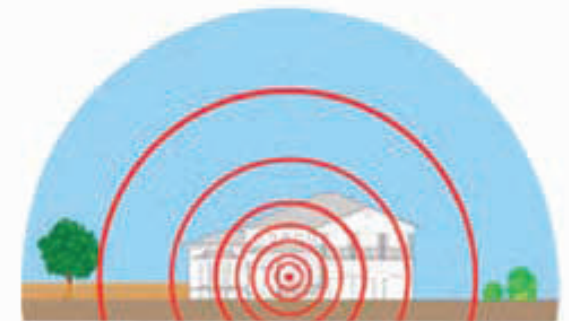

**Never pay a monthly, activation or set up fee again.**

FreedomAlert is yours to keep and use forever. Once you purchase it there is nothing more to pay

**Water Resistant** The pendant can be taken into the shower where serious accidents happen.

**System has standby emergency battery power** Rechargeable batteries continually charge in the base station so as to be able to provide up to 24 hours of standby power in the event of a power failure.

**Complete coverage in and around your home** Because you are speaking through your pendant, FreedomAlert allows you to communicate your message from every corner of your home, in the yard and in the driveway.

FreedomAlert's 2-Way Voice Communication Range

Typical Personal Emergency Response System's 2-way Voice Communication Range as speakerphone is in the Base Station

**Voice Prompted System** Provides voice announcements for set-up, testing, battery test and full system check
